Beijing Motor Show 2016

Changfeng presents its latest Leopaard Liebao Q6 SUV with an automatic transmission by PUNCH Powerglide

Mr. Li Jianxin, Chairman of Hunan Changfeng Motors Co., Ltd., presented at today's press presentation Leopaard's latest Liebao Q6 SUV. With this model, Leopaard can offer for the first time a state-of-the-art 6-speed automatic transmission, fully electronically controlled with a clutch-to-clutch shifting, which will provide a new driving experience and additional comfort to its customers. The supplier of this new driveline solution is PUNCH Powerglide.

Changfeng had been joined by the Board of the PUNCH Group as Changfeng represents the first Chinese OEM to procure PUNCH Powerglide's automatic transmissions. Company owner and CEO Guido Dumarey congratulated the engineering teams for the excellent work achieved throughout the project and added: "We have a great esteem for Changfeng as our lead customer in China and we are happy to say today that numerous other Chinese OEMs have signed up since with PUNCH Powerglide. We are strongly committed to the Chinese market. Our product roadmap with the now available Stop&Start function and a planned hybrid version will allow us to pursue successful partnerships with our Chinese customers in the long run."
